

## Safe Schools Helpline

Perry Local Schools is once again participating in the Safe Schools Helpline. Brochures and magnets with instructions have been supplied to the students at Perry High School. This Helpline has been developed for students, parents/guardians and staff members to help maintain safety and the most positive school environment possible.

The purpose of the Safe School Helpline is to promote school safety and provide a tool for reporting wrongdoings or illegal activity. All inquiries are received by Security Voice, an independent service provider to insure that you will remain **anonymous**. Security Voice is an independent entity which is not part of our school. **Although your report will be sent to our school, no one from our school will receive your actual email address. Security Voice is committed to keeping your identity confidential, unless you wish to give your name.** They will ask you to disclose the information that you feel our school/district should know. In order to take action and conduct an investigation, our school/district must have a factual basis for doing so. Therefore, please provide specific facts when using the Safe School Helpline. When our school/district receives your report, we may have further questions. If we do, we will supply those questions in our response to Security Voice and they will send them on to you via the email address you provide. Once the school/district receives the information and determines an action step, a follow-up report is provided to Security Voice. Security Voice then informs the person reporting the wrongdoing or illegal activity of the actions steps the school/district has taken to address the information in the report.

If you would like to report a wrongdoing or illegal activity in our school/district, please call 1-800-4-1-VOICE Ext. 359 or 1-800-418-6423 Ext. 359 and provide specific facts and information that will enable an investigation or action step. You may also use the internet reporting system by going to [www.safeschoolhelpline.com](http://www.safeschoolhelpline.com).
